Technological Sciences
& Engineering

2024 ATSE Awards & New Fellows Showcase
The Innovation Opportunity

ATSE is Australia's foremost impact network for leading applied scientists, technologists and engineers.

WHAT WE DO

We are an independent, non-government organisation and registered charity led by a diverse Fellowship of over 900 future shapers who strive for a sustainable and prosperous Australia.

Our Academy celebrates excellence in STEM, by appointing prestigious Fellows, awarding emerging innovators and equipping the next generation with skills to build a better Australia and world.

We are an authoritative and independent voice to government and our world-class STEM Career programs demonstrate how to tackle our most urgent challenges.

Since 1975 the Academy has surged from 65 to over 900 Fellows who are responding to Australia's most urgent and complex challenges – from climate change, pandemics, food and water security to stewarding a waste free future and addressing the STEM skills shortage.

VISION

A sustainable and prosperous Australia where applied science and technology protects our environment, builds resilience, nurtures a skilled workforce, grows competitive industries and enables all Australians to reach their greatest potential.

MISSION

We are a Learned Academy of independent experts helping Australians understand and use technology to solve complex problems.

HOW WE ACHIEVE OUR GOALS

Igniting curiosity and equipping students with systems thinking skills with our sustainability focused schools' program STELR in almost 1,000 schools in Australia.

Partnering over 350 STEM PhD students and early-career researchers every year (Mentees) with hundreds of influential industry leaders from a broad range of sectors (Mentors) and offering internships through our IMNIS program. More than 2000 people have completed the program and are putting their new skills and networks to work to grow Australia's collaborative R&D ecosystems.

Supporting a broad diversity of women and non-binary people with scholarships, skills, networks and professional development to learn and thrive in their STEM careers through the Elevate: Boosting women in STEM program. With more than 1,000 applications in our first year, demand by Australian women for a career in STEM is strong.

Unlocking access to international networks that boost Australia's global profile and partnerships in science and technology research and translation. Our programs build international research-industry collaborations through targeted grants and knowledge exchange workshops to address urgent global issues. We link Australian applied science and engineering leaders globally as a founding member of a global network of more than 30 learned academies in engineering and technology, and will host a major international symposium in 2025.

NEW
FELLOWS

ATSE
AWARDS

The Innovation Opportunity

2024 New Fellows Showcase & ATSE Awards Gala Dinner

Better living through applied science and technology

We can all name those home-grown science and technology breakthroughs which jump to mind which have fundamentally changed our lives – penicillin, bank notes, the black box flight recorder, the bionic ear, WiFi, the pacemaker, spray on skin, Google Maps. But what are the next 10, 50, 100 innovations that will change our lives for the better? How can our R&D system best nourish new innovation? What needs to happen to create a science and tech landscape to support exciting emerging ideas to flourish and become our next breakthroughs?

The 2024 Australian Academy of Technological Sciences and Engineering (ATSE) New Fellows Showcase and National Awards Gala Dinner will celebrate exceptional Australian ingenuity, and how to nurture, grow and sustain it.

New Fellows Showcase

Featuring ATSE's new Fellows, judged by the Academy to be Australia's leading applied science and engineering innovators, the showcase will highlight the breakthroughs leading the way into new areas of discovery and prosperity and identify the key opportunities to build Australia's rich innovation future.

The showcase will feature innovative panel discussions, keynote presentations, discussion, and networking with over 300 of Australia's STEM champions.

Awards Gala Dinner

A celebration of Australia's most esteemed and up-and-coming innovators across 6 major national award categories, who are generating new ideas and technologies which are redefining how we live, work and play.

- Clunies Ross Technology Innovation Awards for game-changing achievement
- Batterham Medal for Engineering Excellence
- ICM Agrifood Award for emerging innovators in agrifood science and technology
- Ezio Rizzardo Polymer Scholarship to fast-track emerging leaders
- David & Valerie Solomon Award for new innovators
- Traditional Knowledge Innovation Award for the modern STEM-powered application of Aboriginal and Torres Strait Islander knowledge

Featuring a distinguished keynote address to be announced and over 300 high-profile participants spanning Federal and State politics, business, government, education, science, technology, engineering, research and the media.

“The importance of science has never been more acutely felt. You are the key to meeting our ambitious net zero targets, unlocking new industries in quantum, robotics, synthetic biology and creating healthier, greener more secure futures. I congratulate all the nominees and Fellows who have been recognised this week and for the inspiration you offer to all Australians.”

Honourable Ed Husic
Minister for Science and Industry
at the ATSE Awards 2023

Diamond Partner

Join us as a diamond partner for the 2024 New Fellows Showcase and ATSE Awards - The Innovation Opportunity

The Diamond package is our top tier partnership package, providing an extensive range of the following benefits:

- 10 general registrations for the 2024 New Fellows Showcase
- Two tables of 10 at the ATSE Awards Gala Dinner
- Opportunity to provide a three-minute address at the 2024 ATSE Awards Gala Dinner
- A custom film to be projected on the 17m dome ceiling of Metropolis Panorama room during the ATSE Awards Gala
- An optional 90 second video to be shown during the 2024 New Fellows Showcase
- Diamond-level logo placement throughout the event, including live-streaming for the 2024 New Fellows Showcase
- Advertisement in the New Fellows Showcase program.
- Collaboration on a thought piece communications campaign tied to the theme in the lead up

Investment: \$140,000 ex GST

“I want to congratulate the new fellows, I want to congratulate those who are going to be award recipients tonight. Thank you for your contribution to Australia. Thank you for your contribution to our growth. But more than that, thank you for your potential and what you will do for us into the future. This is an important institution in the life of Australia.”

His Excellency General the Honourable David Hurley AC DSC (Retd) FTSE, Governor-General of the Commonwealth of Australia

Platinum Partner

The Platinum package provides an extensive range of benefits which can be further customised with interested partners.

- 10 general registrations for the 2024 New Fellows Showcase
- A table of 10 at the ATSE Awards Gala Dinner
- Opportunity to provide a one-minute address at the New Fellows Showcase or ATSE Awards Gala Dinner
- An optional 60 second video to be shown during the 2024 New Fellows Showcase
- Platinum-level logo placement throughout the event
- Half page advertisement in the New Fellows Showcase program.
- Collaboration on a thought piece communications campaign tied to the theme in the lead up

Investment: \$60,000 ex GST

“I think it’d be important for STEM to consider diversity beyond its workforce but also in projects, problems and questions we are asking. That the ways in which we need to view a problem in order to find a solution can be different and that it’s okay to include alternate ways of thinking like our indigenous knowledge systems, because they are respected by people like you in this room.”

Mibu Fischer
CSIRO and Quandamooka saltwater scientist
speaking at the ATSE Awards 2023

2024 Sponsorship Packages

MELBOURNE 2024

Join us as a sponsor for the ATSE New Fellows Showcase and ATSE Awards which will be held in Melbourne on 17 October 2024 at the picturesque Metropolis in Southbank.

Gold

\$40,000 ex GST

- > 10 general registrations for the New Fellows Showcase
- > Five registrations for the ATSE Awards Gala Dinner
- > Gold-level logo placement
- > Advertisement in the New Fellows Showcase program
- > An optional 30-second video to be shown during the New Fellows Showcase.

Silver

\$25,000 ex GST

- > Five general registrations for the New Fellows Showcase
- > Two registrations for the ATSE Awards Gala Dinner
- > Silver-level logo placement
- > Advertisement in the New Fellows Showcase program.

Bronze

\$17,000 ex GST

- > Two general registrations for the New Fellows Showcase
- > One registration for the ATSE Awards Gala Dinner
- > Bronze-level logo placement
- > Advertisement in the New Fellows Showcase program.

First Nations scholarship

\$5,500 ex GST

Sponsor one general registration for the New Fellows Showcase and ATSE Awards Gala Dinner, and travel, accommodation and meal allowance for one First Nations recipient.

Other benefits include:

- > Opportunity to assist the ATSE Secretariat with the scoring of scholarship entries
- > Opportunity to meet and greet with recipients in person
- > Advertisement in the New Fellows Showcase program.

LGBTQIA+ scholarship

\$5,500 ex GST

Sponsor one general registration for the New Fellows Showcase and ATSE Awards Gala Dinner, travel, accommodation and meal allowance for one LGBTQIA+ recipient.

Other benefits include:

- > Opportunity to assist the ATSE Secretariat with the scoring of scholarship entries
- > Opportunity to meet and greet with recipients in person
- > Advertisement in the New Fellows Showcase program.

Accessibility

\$18,000 ex GST

Help make the New Fellows Showcase and the ATSE Awards Gala Dinner as accessible as possible for all our delegates by sponsoring AUSLAN interpreters and hearing loops during the events.

Other benefits include:

- > Two general registrations for the New Fellows Showcase and ATSE Awards Gala Dinner
- > Advertisement in the New Fellows Showcase program.

Childcare grant

\$15,000 ex GST

Support more STEM early career researchers and other delegates with child-caring responsibilities to attend and participate by sponsoring childcare grants of up to \$200 a day.

Other benefits include:

- > Two general registrations for the New Fellows Showcase and Awards Gala Dinner
- > Advertisement in New Fellows Showcase program.

Coffee cart

\$8,500 ex GST

Benefits include:

- > Logo placement on coffee cart
- > Branded coffee cups
- > One New Fellows Showcase and ATSE Awards Gala Dinner registration
- > Advertisement in the New Fellows Showcase program.

2023 EVENT WRAP

OUR REACH

News Media

180 articles with an audience reach of over 2.9 million

On TV with SBS World News and NITV

Via radio with ABC Radio National and ABC Canberra, Sydney, Brisbane, New England, Kimberley, Pilbara and Adelaide

Online with AAP, the Canberra Times and over 60 local newspapers, Education Matters, Australian Manufacturing and most major Australian universities

In print newspapers nationally including the National Indigenous Times

Social Media

Strong social media engagement across LinkedIn, Twitter, Facebook and Instagram reaching an audience of over 1.1 million.

356 published messages

4.5K post engagements

1.1M+ potential reach

Participation

560 attendees in total from the education, technology, defence, engineering, minerals, health, government and private sectors

140 at the reception

200 at the showcase

320 at the Awards dinner

10 event sponsors

Over 40 diverse speakers

31 of 33 New Fellows joined in person

All eight award recipients joined in person

Three Aboriginal & Torres Strait Islander scholarship recipients and one LGBTQIA+ scholarship recipient

NEW FELLOWS

ATSE AWARDS

FEEDBACK

The overall average rating for ATSE's major events were 4 out of 5.

"The event was a wonderful celebration of innovation and futuristic intent. I'm glad HCLTech was able to play its role as a continued supporter of STEM education and Innovative endeavours."

"This week was full of inspiration and hope and a vision for a future. I think with our team and our new fellows we are in good hands."

"It was a perfect event ...Well done team ATSE."

"Of all the ATSE Awards nights I have attended this was certainly the best and most professionally delivered."

"Congratulations on all the events last week. Simply Excellent."

"My first experience of the in-person New Fellows events and Awards - which were polished, professional, and to the highest possible standard."

"Mibu Fisher's speech was both powerful and important."

"The events unveiled the broader context of engineering in Australia, showcasing its role in addressing critical challenges across diverse sectors, from water science to delivering drugs more effectively to patients. The highlight was engaging with professionals across varied engineering fields."

"For me personally, a real eye opener in terms of how the Academy works and the power of all those brains working together."

**Australian Academy of
Technological Sciences
& Engineering**

The Australian Academy of Technological Sciences and Engineering (ATSE) Fellows live and work on Aboriginal and Torres Strait Islander lands and waters across Australia. As we help Australians understand and use technology to solve complex problems, we remain mindful of the 60,000 years of science, technology and innovation represented by the world's oldest continuing cultures. We seek always to respect Aboriginal and Torres Strait Islander Elders, both from history and today, and to respect the deep knowledge embodied in their ancient and sustainable cultures and knowledge. We acknowledge the Traditional Owners and pay respects to their Elders. We acknowledge Traditional Knowledge, and the deep history of innovation it embodies.
